## Check and Abort a Bad Cold

In Five Hours With MENTHO-LAXENE.

You Buy It Concentrated and Mix With Pint of Syrup.

Doubtless every reader recalls having neglected a slight cold until in 24 hours it settled into a "Bad Cold" and then about 72 hours of distress, discomfort, if not weeks of bronchitis or pneumonia or catarrh. Now confess, if you've had such an experience, and take time by the forelock by preparing to check and abort colds, coughs, catarrh, difficult breathing, watering eyes and painful headaches. It can be done by taking MENTHO-LAXENE either in a raw state—ten drops to the dose—or by mixing a granulated sugar syrup and mixing in a pint bottle or jar. A pint will last a whole family for a long time and keeps every member free from the distressing after-effects of a bad cold. MENTHO-LAXENE is a raw state—to please or money back by The Blackburn Products Co., Dayton, Ohio, and any well stocked druggist can supply you. Don't take a substitute. There is really nothing to compare with Menthio-Laxene.

THERE is no advertising medium in Eastern Connecticut equal to The Bulletin for business results.

# THE JOY OF MOTHERHOOD

Words of Encouragement to Childless Women.

Motherhood is woman's natural destiny, but many women are denied the happiness of children simply because of some curable derangement.

Among the many triumphs of Lydia E. Pinkham's Vegetable Compound is its marvelous power to overcome such derangements, as evidenced by the following letter:

Worcester, Mass.—"I suffered from female ills, and was advised to have an operation, but a friend who had taken Lydia E. Pinkham's Vegetable Compound and who has six children, told me to try it. It has helped me so much that I am now well and have a baby boy who is the picture of health, and I thank the Vegetable Compound for my restoration to health."

In many other homes, one childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

Write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice—it will be confidential.

**Fans Are Not Worrying.**  
Fans here were interested in the announcement made from Boston that the big league players who have been taking part in post-season ball games, as in Putnam, for instance, are going to be punished by the national commission. Well, Putnam should worry. Quite a few of the big league players have been here and hereabouts recently. Most of them have been paid liberally for their work here and some of them have received more than they were worth for what they were able to show here. Ty Cobb, for instance, so if the national commission takes a fall out of them it's not the players to worry about. Having paid the price to see them, the fans can let the players do the worrying. At the same time the fans are grateful for the live management of the Putnam team in bringing the stars to town.

**Reported Case of Paralysis.**  
It was reported here Saturday that a case of infantile paralysis has developed in Eastford. **Chimney-Cleaning Important.**  
At the beginning of the season when it is necessary to keep houses heated attention is being called by the authorities to the fact that the great majority of fires in this city are caused by defective chimneys. Reports of the fire department covering a series of years will show that the great percentage of all alarms is for chimney fires. With this in view at the beginning of the cold weather season the attention of property owners is being directed to the desirability of having chimneys carefully looked after and put in proper condition.
